About DynaNotes Digital Subscriptions

Why Choose a DynaNotes Digital Annual Site License for Your Campus?

- **Total Access:** Students and teachers get ALL available core subject area DynaNotes student course notes for the site's grade levels *and below*.

- **More Content:** Extras available only to digital subscribers:
  - THOUSANDS of helpful third-party WEB LINKS are listed within many sections of content. Students can click to related instructional videos and pages, primary source documents, Project Share resources, etc.
  - TEA charts are provided within each applicable set of course notes.

- **Keyword Search:** Students use the menus, arrows, or keyword search to get to the section(s) of content they need to progress through their work.

- **Personalization Tools:** Students add their own notes to any section of their DynaNotes to capture *their work, their ideas,* and more:
  - TEXT NOTES capture clarifications, more depth/detail/examples, first language reminders, mnemonics, student questions, teacher-led differentiated instruction, additional web addresses, etc.
  - PHOTO NOTES capture the teacher's exemplars, student work (projects, homework, quiz results, lab experiments), screen images (online graphics, photos), real-world images (indoors/outdoors), etc.

- **Multi-user Functionality:** Shared iPads and other devices are not a problem. Students can password-protect the text and photo notes they will add to each section of their DynaNotes.

- **Flexible Implementation Across Hardware/Software:** Access to technology differs by district, campus, grade level, and even classroom. We work hard to support the needs, opportunities, and restrictions that Texas' schools face.

	html	HTML5 web browser via any PC, laptop, tablet, or smartphone (e.g., Explorer, Chrome, Firefox)	course notes, TEA charts, web links, keyword search
	iOS	iPad 2+ with updated software	course notes, TEA charts, web links, keyword search, personal text notes, personal photo notes
	Android	Android tablet, Android phone, or any Windows device with Android emulator software*	

- **Free Teacher Training in the www.dynanotes.com Teacher's Workroom:** Learn how students can create *easy, awesome* student course JOURNALS and connect DynaNotes to the instructional strategies (password required).

- **Lower Upfront Costs:** Access for the school year is just $0.99 per enrolled elementary student (grades 3+) or $1.99 per enrolled secondary student.

- **Deep Discounts on Printed Materials:** 50% off cardstock notes, 25% off booklets, and more – solutions for when devices stay on campus.

- **District Authentication:** In support of district-wide adoption, DynaStudy will support the specific set-up requirements unique to the district's "pass through" authentication system (DAN/HUB/portal/Canvas/Blackboard/etc.).

DYNANOTES™
TOOLS FOR EXPLOSIVE LEARNING

*BlueStacks Android emulator software allows Android apps, such as DynaNotes Plus, to run on many Windows devices. Check BlueStacks specifications, then install and test a common Android app first.
